The aim of this workshop is to discuss the practical implementation of Eco-Schemes green architecture in selected European countries, including the approaches, challenges and needs of public administration responsible for the implementation of these measures in different countries. As an outcome of this workshop, an article lead by the scientists of the EFFECT project will be prepared and submitted for publication in Eurochoices journal

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N° 817903.

## Proposed Agenda:

- 09:30                      Brief introduction to the workshop (Irina Prokofieva, CTFC)
- 9:45 – 11:00              Country case presentations (10 minutes / case)
- Denmark (Mette Termansen & Carsten Daugbjerg, UCPH)
  - Germany (Uwe Latacz-Lohman UNIKIEL & Johannes Sauer TUM)
  - Netherlands (Jeroen Candel, WUR)
  - Hungary (Jozsef Fogasi, UNIOBUDA)
  - Spain (TBC)
  - Estonia (Jaan Lira, UT)
- 11:00 – 11:20              Reflections on country implementation of Eco-Schemes
- 11:20 – 12:00              Discussion and next steps

*The meeting will be recorded if this is acceptable for everybody – the recording will be deleted once the notes from the meeting have been written-up.*

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N° 817903.
